

[Introducing the Gluing Team](#)

This month I'd like to introduce you to our excellent Gluing Team, who unerringly produce a broad range of product types (see pictures below for some example styles) from three highly flexible machines, each of which glues thousands of boxes each hour with metronomic reliability.

We have a fast, straight-line EMBA gluer that is as robust and dependable as any machinery could aspire to be. We also have two multi-point gluers which elegantly and efficiently accommodate more complex designs.

If we don't already supply all of your boxes - we'd love to quote for it all. Please drop me a line with the details...

Jody Adams, Account Manager

Supervisor, Adrianna Micigolska

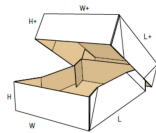

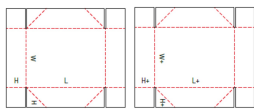

Adrianna manages a team of seven highly-experienced operators with a zen-like calm and diligence that we are blessed to leverage for the benefit of our clients.

She joined us in 2012 via an agency (initially gaining experience by hand gluing packs) and formally joined the business three years later. An impressive work ethic and a wonderfully warm, quiet intelligence earned her a richly-deserved promotion to Supervisor two years ago.

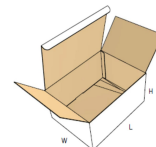

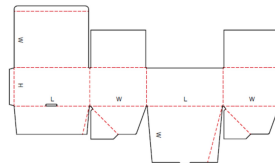

Adrianna spent three weeks in her native Poland this year, belatedly catching up with family (thankfully pandemic-era travel restrictions have been lifted).
